WHO WE ARE

PowerShield is an Australian company that specialises in power protection and uninterruptible power supply (UPS) equipment. With a focus on Oceania, PowerShield designs and produces products that are specifically tailored to the unique power needs of the region. The company is dedicated to ensuring that everyone in Oceania has access to consistent clean power and focus on the development of innovative solutions that meet this goal. With a commitment to quality and customer satisfaction, PowerShield has become a trusted leader in the power protection industry.

| PARTNER PRIORITY

PowerShield believes in shared success for all of our partners. Our customers are familiar with the exceptional margins we offer that help increase their revenue and growth. The best feedback we get from our partners is that we went above and beyond to help them deliver the right solution to their customers and with a return rate of less than 1% on all of our UPS equipment, partners can be confident that the solutions they provide are of the highest standard in the industry.

KEY DIFFERENTIATORS

- **Expert understanding of power protection challenges** unique to Oceania.
- **Local technical and sales support teams** don't wait for your sales or support query to be relayed to another country.
- **Australian Engineering** We design and customise best-in-class solutions within Australia.
- **Local stock** Is held in both our East and West Coast warehouses in Australia for fast dispatch.
